FCC: Sirs;

We watch RFD on SuddenLink and feel fortunate to be able to watch the great programming available on this station.

RFD is on 90% of our TV time, because it is a clean, wholesome station a child can and would love to watch.

Being a lover of horses, and all things country and western, it is by far our most-loved station. Love of God and Country sets a perfect example of what TV can and should be.

Most TV is pure garbage, hatred, and violence of every kind. When young minds and hearts are exposed to these shows that dominate the programming that is what becomes "NORMAL" behavior.

Our News is full of these acts of violence and it should Not be entertainment.

Ruby J. Cunningham  
Nixa, MO.

Dear Sir:

DOCKET FILE COPY ORIGINAL

The RFD-TV Channel provides my sister and myself with quite a bit of good programming. There are a lot of shows that suit the people of this farming area and to be without it will leave us all with a great void that cannot be filled.

To me, the programming on the other channels is growing more and more absurd every day. The "History Channel" no longer covers history. That channel now has a multitude of shows like "Swamp People" and "Party Down South." The "Travel Channel" no longer covers travel. It should now be called the "Food Channel" because all they do on it is eat! You don't see anyplace interesting- just people stuffing their faces. Most of the "National Geographic Channel" has turned to follow the "Swamp People"-type shows (probably to compete with the other bad channels).----- And these shows are three of the better channels!!

The RFD-TV Channel provides us with entertainment that we can enjoy. We love to watch the old steam locomotives on "Trains and Locomotives" shown every Monday afternoon at 5 p.m. We like the "Marty Stuart Show" and "Larry's Country Diner."

All-in-all, RFD-TV Channel is a Station true to itself!

I hope you will be true to yourselves and help keep this "American" channel going.

Thanks for listening to us.

Sincerely yours,

*Lawrence Cameron*  
*Janet Cameron*

To Whom It May Concern:

My husband and I watch RFD-TV on Dish and really enjoy the programming. We especially like the line up Friday, Saturday and Sunday evenings. We also like to learn about the new farming and gardening. There are just a lot of programs we enjoy and would miss, probably find something else to do rather than watch TV if it is done away with.

I understand that the FCC with the Proceeding Number 16-41 is trying to put an end to wholesome television viewing such as RFD-TV and Rural TV also Blues Highway that we enjoyed for a short time and was changed drastically seems like over night, programs we were watching just disappeared.

Independent programming is just as important if not more important than some of the shows the big networks put on because we are not afraid of letting kids and grandkids watching RFD-TV. Regular programming can be embarrassing with kids setting there and we never know what kind of commercials are going to come on or what filthy, disgusting show might be advertised. We don't watch the shows I'm speaking of but they are advertised while we are trying to watch something decent.

A lot of the shows put on for viewing now days are not fit for anyone especially the young people to see because they are so impressionable. I know I'm getting older but America is losing its morals so fast it is unbelievable. I know all of the new technology is good in some respects and I know we can't go back to the way it was even when my kids was small, but it wouldn't hurt to try to protect there minds and not force them to grow up to fast. Kids don't get to be kids anymore. They learn about things now when they are six or 8 that we as children didn't learn until we were teenagers, now you may think that it is ok they need to know it really doesn't improve their mind it just clutters it with mean and hateful things.

We wonder why the world is getting in the shape it is in just stop and look at what is being put in front of the younger generation. If you really pay attention to what you are putting out for them to watch you will see that these impressionable minds are taking it all in and acting on it. Just think about what you are doing.

Hello, W. 41

DOCKET FILE COPY ORIGINAL

I am writing today to request that RFD TV remain on the air. I watch this station almost exclusively and it provides me and my family hours of entertainment.

If this station is removed it means that good, wholesome programs will not be accessible to the many who still value shows that bring happiness and educational value to their lives.

Please keep this station on the air!

Sincerely

Charles Letchworth

Bear F.C.C. 16-41

R.F.D. offers a well-rounded source of learning and entertainment, all in an atmosphere of our basic morals and beliefs.

It seems there are attempts to de-educate many of our people - Freedom of speech and having choice of TV channels is very important.

I am a retired teacher, having taught in a one-room school in a country situation, you find good characteristics in people.

R.F.D. have programs of interest to all ages - Please consider the independent network as a necessary element in keeping us informed.

Thank you.

Sincerely,

Betty H. Mc Clendon

The news channels and RFD  
are the only ones I watch on  
TV. Do not even consider  
watching all the fighting, blood  
and violence on most channels.  
That is what has ~~caused~~  
caused so much harm to the  
younger generation today.

Let your conscience be your  
guide. God Bless!!

DEAR FCC, PROCEDURE NO. 16-41

DOCKET FILE COPY ORIGINAL

TO WHOM IT MAY CONCERN:

MY WIFE AND I WATCH RFD-TV ON SUDDENLINK CABLE CHANNEL 4 IN BRANSON, MO. DAILY. IT WOULD BE A DISGRACE FOR THE FCC TO PERMIT THIS TYPE OF PROGRAMMING TO BE DENIED TO TODAY'S SOCIETY WITH ALL THE OTHER TYPES OF PROGRAMS THAT ARE PRESENTLY FORCED ON PUBLIC TV.

PLEASE DO NOT DENY THE INFORMATION AND PROGRAMING THAT RFD-TV IS MAKING AVAILABLE TO THE NATION, ESPECIALLY THOSE PEOPLE ACROSS THE COUNTRY WHO HAVE LIMITED KNOWLEDGE ABOUT RURAL AMERICA AND IT'S IMPORTANCE TO OUR NATION.

SINCERELY

JAMES & CAROLYN WALDO 110 EAST END RD. BRANSON, MO. 65616 (417)335-8757

Sirs,

I am writing in behalf of Rural  
Independant Programming. Our R.F.D.  
station is being threatened to be  
removed from TV. That would be  
devastating. I watch it alot. It means  
alot to those of us in rural America.  
So I plead that you would continue  
to air R.F.D.

Thanks so much,

Audrey Swaim

RFD TV

We always enjoy the many programs on this network - RFD + HV -

there are so many varieties - Agriculture or Farming, the horses - Gentle Giants. what beautiful horses - (Bring back

memories to us -) my wife Doc had some Beautiful Big horses ~~like~~ similar to those -

Also, the music that we enjoy - great talk shows w/ music - Kenny Rogers, Dottie

Ray & Steve - so many to think of -

We do not want to see some Big City Corporation trying to deny the many viewers of these great programs we enjoy so much -

Thank you for your programming - are good thing to notice - All programming is Clean - there is nothing that can be kept from young children - Thank you - we support you - Keep fighting for so many, many families -

Two RFD TV Viewers

Laverne & MaryAnn Sharp  
Corral, Wash. - Whitman County

Proceeding # NO. 16-41

I watch RFD TV on Direct TV  
Channel 345.

Please allow it to stay on the  
air and at a cost that is affordable

We love RFD TV and the Marty Stuart  
Show.

Thank you,

HERMANN, MO 65041-4321

*Note—*

Please do not take  
away our rural program-  
ing. The country people need it.  
Who do you think feed you any-  
way? Rural people are the hardest  
working people in the U.S.A and  
need this programming, especially  
the country & Christian music.  
Thank you!

To Whom it May Concern:

The purpose of this letter is to say, "Please don't block or replace RFD TV on our television"

DOCKET FILE COPY ORIGINAL

We think this channel is not only informative but also good entertainment. We are senior citizens living in a rural area and find it hard to find entertainment which we enjoy. There are many channels available for those who are interested in watching other shows, but none that we are aware of, that would replace RFD programming.

If people living in urban areas would watch this type of programming, they would have a better understanding of what is involved in country-living and the farming industry, as well as being entertained.

We live in central Kansas and watch channel 345 RFD-TV on DirecTV.

Thank you for your consideration.

Harold Andreson and Dorothy Andreson

*Harold Andreson*

DOCKET FILE COPY ORIGINAL

to whom it may concern -

I'm writing concerning the importance of RFD TV's Rural programming - we watch it all the time on 205<sup>9001</sup> Dish Satellite

Where else can we get the grain & cattle market up date which we depend on? And there is no other weather forecast as accurate as theirs. New technology on farming practices & auction sales - by video - Not to mention the Country tours & Country & Gospel Music & Rodeos. I know these may not be important to you, but just remember - No Farms  
No Food

We feed the nation - and we & our children and grand children depend on RFD so please be sensible & have a heart.

There are so many channels that are not worth watching. In fact I'm ashamed to have them coming into our home (even the advertisement are shameful) so why not have at least one that's worth watching? Thank You

DOCKET FILE COPY ORIGINAL

Dear FCC 1641,

When we obtained Satellite in our home we immediately realized that RFD would be our most frequently watched channel. No other channel provided the agricultural information and country music like RFD. Saturday and Sunday nights found us really enjoying the wholesome, family entertainment provided by RFD.

Since agriculture provides an abundance of necessities for life, we feel this channel needs to be in every home. Our children and adults deserve the opportunity to know where their food

Shelter and clothing originate. The entire family  
can enjoy and learn from all the information  
provided by RFD.

We deeply appreciate having RFD as part  
of our everyday life and wish both rural  
and urban viewers could have this wonderful  
privilege.

Sincerely,  
Charles and Carolyn Little
